LIST OF WHAT
IS HAPPENING
IN 2003

CTC has reached its 125th year and to celebrate, local groups and clubs are putting on a number of special events as well as the usual annual events, starting on our launch weekend of 3-5 May. There should be something going on in your area, whether it's a leisurely short ride to encourage families and beginners, a more challenging 25 mile ride for beginners or 125 mile for the more experienced. There will be badges and certificates available for anyone completing standard distances of 25, 50, 75, 100 and 125 miles. So find out what's going on near you and join others to celebrate 125 years of touring with CTC - there will be something for everyone.

The grand finale of the celebrations will be the Hardy Rides in Dorset on 2-9 August. More than a thousand cyclists are expected at Warmwell Holiday Park between Dorchester and Weymouth, where there will be lots going on including road and offroad rides, audax, family rides, children's events, competitions, a church service, evening entertainment and lots more. The Birthday Rides week will include the 125th celebratory dinner in the stunning conference hall at Kingston Maurward College and the gardens will be the venue for the Birthday Tea. CTC President Phil Liggett and a special guest will be present. International cycling organisations to cut the cake. Photocalls are planned including a member of each of CTC's local groups wearing club colours. It will be a truly memorable occasion.

Alongside the May weekend and Hardy Rides will be our range of national events and challenge rides which are growing in popularity each year. The offroad series has more dates and local groups are putting on lots of rides and events for newcomers and beginners.

So there really is no excuse - get out and have fun in 2003!

CANCER RESEARCH UK Cycle for Life 2003

Cancer Research UK is promoting 18 entry level cycle rides in 2003 to raise awareness of cancers suffered by men. Last year they ran 12, all of which were very enjoyable for the riders and CTC members who helped with marshalling and route design. The support from CTC groups in 2002 was fantastic. CTC acted as a partner that understood the needs of cyclists, and was able to advise on best practice. Cancer Research UK provided an excellent level of event organisation. With entry level cycling it is essential that the organiser is in control of the operation from start to finish. In 2003 we hope to improve the impact of CTC by raising our profile and explaining to the riders just what CTC has to offer them. The success of the Cycle for Life series depends on 2003 being at least twice as successful as 2002.

CTC local groups can help Cancer Research UK reach this target by providing information to the local media and distributing promotional materials to friends and workmates before the events. The whole initiative is about promoting cycling and showing new riders just how pleasant and safe it really is to ride your bike, and help Cancer Research UK fund research into cancers.

CTC COMPETITIONS

District Association Tourist Competition (DATC)

This competition is becoming more popular amongst touring cyclists every year and 2002 saw the competition won by a woman for the first time. There are trophies for the top placed man, woman, junior boy, junior girl and vet. The top placings can become very competitive and there are also team prizes to be won. A certificate and badge is the reward for ten completed rides.

This year the DATC has more than 370 events representing a truly nationwide spread. The events cover all aspects of riding from 50km to overnight rides of 600km. A variety of fun events are also included, as are offroad and roughstuff routes. Up to ten events can count, preferably one each of the six different categories a - f in the event codes, plus four repeats. You can select from the whole programme of DATC events including the National 400.

So why not give it a try by participating in an event or two? Simply request details of the event you are interested in from the organiser. The full DATC rules are available from CTC or the DATC Co-ordinator Bob Kynaston (tel 020 8950 2082). Changes to events will be reported in 'Cycle' and an update on the competition will be available from June from Bob Kynaston, 14 Orchard Close, The Rutts, Bushey Heath, Herts WD23 1LW. Please enclose a large SAE. Website www.datc.care4free.net

The DATC and DATC events are open to all CTC members and you do not have to be a regular rider with your local group to join in.

Events that are marked as BP (Brevet Populaire) or BR (Brevet de Randonneur) are run under the regulations of Audax UK, the association for long-distance cyclists, and are open to all cyclists. These events are all checked by AUK for integrity and distance, and are subject to limits on speeds and times. All rides are sent to AUK for validation; some indeed are registered in France for international awards. Records of the events are kept, and there are many levels of UK awards available to all riders. There are requirements for entry: usually at least two weeks in advance; the use of the correct entry form; and 3 SAEs (one for initial enquiry, two for entry - C5 in size).

Mille Miglia

As part of the DATC you can also purchase engraved medals for completing certain distances. Gold for 1000 miles, silver for 1000km and bronze for 500km. See the website for further details www.datc.care4free.net

Best All-Rounder Competition (BAR)

The BAR is a competition for racing CTC members. Trophies are awarded to the fastest men, women, juniors and veterans and certificates are awarded to those who finish over a set speed. More details can be found at www.datc.care4free.net/bar or contact CTC for further information.

British Cycling Quest (BCQ)

If you like your cycling to have a purpose, enjoy devising your own routes and visiting obscure places, then the BCQ could be for you. Launched in 2000 BCQ involves tracking down answers to 402 questions. It's easier than it sounds, however, because you're given the map reference for each place you visit and the questions are simple - they exist to prove only that you were there. There are six sites to visit in each of the 67 counties or islands, and you can obtain County Cards and a Wall Chart to record your progress. For an information sheet and order form send an SAE to CTC. Awards are available for visiting, 50, 100, 200, 300 and all 402 sites.
